**Note:****Calculation of the time difference in individual events**

The amount of time that a competitor must wait before starting is calculated by converting the number of points behind into time. Each point behind is equivalent to four seconds. 15 points behind means a competitor starts one minute later than the competitor in front of him.

**Wave**

To prevent too large start time differences, the Jury can decide upon the use of the "wave start". At the end of the Cross-Country race, the actual time difference after Ski Jumping will be adjusted accordingly.

**Legend:**

**	Wave Start	=	Equal sign indicates that two or more competitors share the same rank
