If two or more competitors have the same number of points at the final evaluation, the order will be determined according to the highest number of individual victories resp. according to the successive ranks.

The team having scored the highest number of points is the winner.

4.4 World Ranking List

The world ranking list consists of the results of the two World Cup's (A and B). The common ranking of both World Cup's at the end of a period or the season is based on this list.

4.4.1 Classification of World Cup A points

That applies to:

- b) negative penalties will be counted only for competitors participating in the additional competitions.

(60 seconds off difference after the jumping competition will be 360 m start distance behind the leading athlete). A track will be prepared in a stadium with approximately 900m in a spiral order.
